

12. Serious and Other Significant Adverse Events

12.1. Treatment-Emergent SAEs

OLE Population

No SAEs

Source: Listing 12.1

Only adverse events that were considered treatment emergent in the OLE period are displayed in this table. If a subject has multiple events within a system organ class or preferred term, the subject is counted once.

Events are sorted by decreased SOC, PTs frequencies on the total column. In case of equal frequency, alphabetic order is used.

Output ID: T-SAE 02AUG17
